

### **Bevel Cutter - Inserting the blade:**

Please note: Should you disassemble your mount cutter completely and have difficulty in re-assembling, send it back to us so that we can put it back together for you. We happily offer this service with a small charge of several packets of chocolate biscuits!

**Follow these steps (right handers):**

**Step 1 – rotate the blade into the slot, sharp edge down**

**Step 2 – line up the hole in the blade with the screw hole underneath**

**Step 3 – screw the screw into the hole and tighten**

**Follow these steps (left handers):**

**Step 1 – rotate the blade into the slot, sharp edge down**

**Step 2 – line up the hole in the blade with the screw hole underneath**

**Step 3 – screw the screw into the hole and tighten**

**Bevel Cutter showing blades fitted for  
Left hand Use and Right Hand Use**
